RE: Response to Comments and Final
Permit for Kennecott Large
Reservoir, Revised Ground Water
Discharge Permit No. UGW350006
and Construction Permit

Dear Mr. Fox:

We have completed our analysis of your April 10, 1995 comments on the draft revised ground water discharge permit for the Large Reservoir. The two comments included in your letter have been addressed in the permit and statement of basis with minor language changes for clarification. We appreciate your input on these two items. Attached is the executed final revised permit for the Large Reservoir. This will allow Kennecott to proceed with construction on Zone 2 of the Large Reservoir. The permit fee for this action is covered under the terms of our Memorandum of Agreement for permit fees.

Should you have any questions on this permit, please feel free to contact John Whitehead at 538-6146.

Sincerely,

Utah Water Quality Board

Don A. Ostler, P.E.
Executive Secretary
